

# Sightglass Wiper type SW I

Data Sheet 02.01

- for circular sightglass assemblies to DIN 28120 or similar as well as screwed sightglass assemblies

#### Installation:

Into sightglass disc with 10,5 mm central hole (to DIN 7080/8902 or similar, see also data sheet 00.03); suits sightglass assemblies to DIN 28120 from nominal size DN 50 to DN 400 as well as screwed sightglass assemblies similar to DIN 11851, DN 50, 65, 80, 100, 125, 150.

### • Application:

For manual cleaning, when required, of inside glass surface in sightports.

### • Operating conditions:

Vacuum tight; pressure tight to at least 2 bar and, depending on glass diameter, to 6 bar. Max. permissible temperature 220° C (though this depends on glass type used).

#### Possible combinations:

Unit can simultaneously be combined with a spray device. Combination with Lumistar luminaire mounted on the sightglass unit is possible from viewing dia. 125 (DIN 28120, DN 100) depending on luminaire size (see table overleaf). Lumiglas luminaire series USL and ESL can also be combined with the unit. With screwed sightglass assemblies combination with Lumiglas luminaire model SLM or Lumistar ME is possible with size DN 125.

### Certification/Testing:

Certification issued by the state material testing authority of Nordrhein-Westfalen, Dortmund, are available.

# Assembly breakdown and material alternatives

for complete supply:

- Item 1 T grip (or ratchet-drive lever at extra cost)
  - Polycarbonate (bush brass)1)
  - 2 locating pins 1.4571
  - 3 spacer collar locating brass or PEEK
  - 4 spacer collar with spigot brass or PEEK
  - 5 compression spring 1.4310
  - 6 bush threaded female 1.4401
  - 7 glass disc Sodalime or Borosilicate
  - 8 gasket non asb. fibre, BAS 400 green
  - 9 O-ring seal Viton
  - 10 bush threaded female 1.4401 or 1.4404
  - 11 wiper spindle 1.4401 or 1.4404
  - 12 O-ring seals Viton
  - 13 bearing sleeve PTFE
  - 14 wiper blade silicon, PTFE or EPDM
  - 15 wiper arm 1.4571
  - 16 locating pin 1.4571
- <sup>1)</sup> where wiper unit is fitted with the alternative ratchet drive mechanism.
- Drive lever 1.4305
- Lever knob Polycarbonate (bush brass)
- Freewheel unit steel
- Drive boss 1.4305

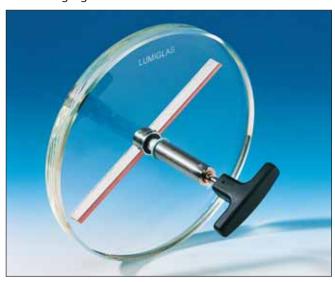

www.lumiglas.de

- Dust cab - synthetic resin

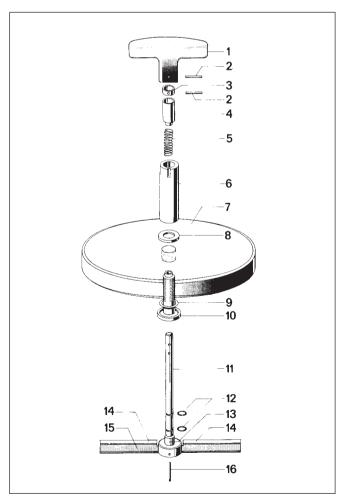

All product contact parts of the wiper assembly are of stainless steel.

### • Fitting and Assembly Instructions:

If the wiper is ordered separately, i.e. not installed into sightglass disc by the manufacturer, the assembly has to be done with regard to separate installation an operating instructions, attached to the delivery.

#### • Ordering Information:

e. g. Lumiglas-Sightglass Wiper type SW I, size 3, wiperblade PTFE. If a sightglass disc is needed as well, please specify the following data:

- Borosilicate or soda lime glass (see data sheet 00.03/...)
- Sightglass disc size (diameter x s)
- nominal fittings diameter DN
- effective operating pressure for this vessel
- for wiper blades sizes 9 and larger, please specify the inside diameter of the fitting

All dimensions in mm unless stated otherwise. Subject to change without prior notice. Min 02.07  $\,\,$  3755.171

## • Note:

A sightglass disc is not automatically included in the supply. Please order sightglass disc separately.

<sup>&</sup>lt;sup>1</sup> Data valid only for borosilicate glass
