

## Soft lag gas bottle heater

Isopad IGB-G soft jacket gas bottle heaters are designed to wrap around a gas bottle and heat the contents while insulating to keep the heat exactly where it needs to be. Waste associated with condensed gas can

be reduced by heating gas cylinders. Gases known to benefit from this process are SF<sub>6</sub>, propane, nitrogen, oxygen, BCl<sub>3</sub>, WF<sub>6</sub>, and HF. These heaters are available in different gas cylinder sizes with a 240 V power

supply. Isopad offers a variety of different versions, which can be tailored individually to the application.
